

SUMMARY

Highly experienced **Android Engineer** specializing in developing and optimizing high-scale applications (multiple millions of downloads). Proven ability to lead feature development, enforce engineering standards, and drive efficiency improvements. Successfully led a project that **reduced manual application release steps by 70%**. Expertise in the full Android lifecycle, including CI/CD, A/B testing, data tracking, and store publishing.

EXPERIENCES

- **Leonardo.AI** Sydney, Australia
Software Engineer May. 2025 – Present
 - **Implemented** core Android features enabling high-performance rendering of AI-generated content.
 - **Led** feature improvements and architectural enhancements on Android.
 - **Streamlined** knowledge transfer via improved technical documentation.
- **Woolies X** Sydney, Australia
Senior Software Engineer Jan. 2024 – May. 2025
 - **Led** end-to-end development of critical features, including "**Proof of Delivery**" and "**Product Substitution**", delivering high-quality releases for a large-scale consumer application.
 - Implemented features with **A/B testing**, robust **unit/integration testing**, and comprehensive **analytics** tracking.
 - Actively **mentored** junior developers in modern Android best practices and guided new joiners through onboarding.
- **SafetyCulture** Sydney, Australia
Senior Software Engineer Jun. 2022 – Dec. 2023
 - **Spearheaded** the development and release of the "**Folder on Mobile**" feature across the Safety Culture application.
 - Successfully **integrated** the Android application with external **Bluetooth devices**, managing full development, testing, and release.
 - Delivered features with **A/B testing**, **unit/integration testing**, and **data tracking** for performance analysis.
- **Willow Inc.** Sydney, Australia (Remote)
Senior Software Engineer Mar. 2021 – Mar. 2022
 - Developed complex features for the **Willow Rail** and **Insite** applications.
 - **Implemented automated testing frameworks** from scratch and integrated into the CI/CD pipeline for Android and iOS, improving release reliability.
- **Agoda** Bangkok, Thailand
Senior Software Engineer Feb. 2020 – Mar. 2021
 - **Engineered an automation system (Release Management Tool)** that streamlined application release to the store for Android and iOS, overriding manual tasks and achieving a **70%** decrease in manual steps.
 - Contributed to core feature development, including **A/B testing** and comprehensive **unit/integration testing**.
 - *Previous Role: Mobile Software Developer (Mar. 2015 – Feb. 2020)*

TECHNICAL SKILLS

- **Languages:** Kotlin, Java, Swift, C#
- **Android:** Jetpack Compose, Coroutines, Koin, Dagger, Retrofit, MVVM, MVP, Play Store Publish
- **Testing:** JUnit, Espresso, A/B Testing, Integration/Unit Testing
- **DevOps/Tools:** CI/CD (Azure DevOps, TeamCity, Buildkite, CircleCI), Git, RESTful API, GraphQL

EDUCATION

- **KMUTT** Bangkok, Thailand
Bachelor of Science in Computer Science; GPA: 3.53 May. 2009 – Feb. 2013
